

# CH:1- NATURE AND SCOPE OF BUSINESS ECONOMICS

## UNIT - 1

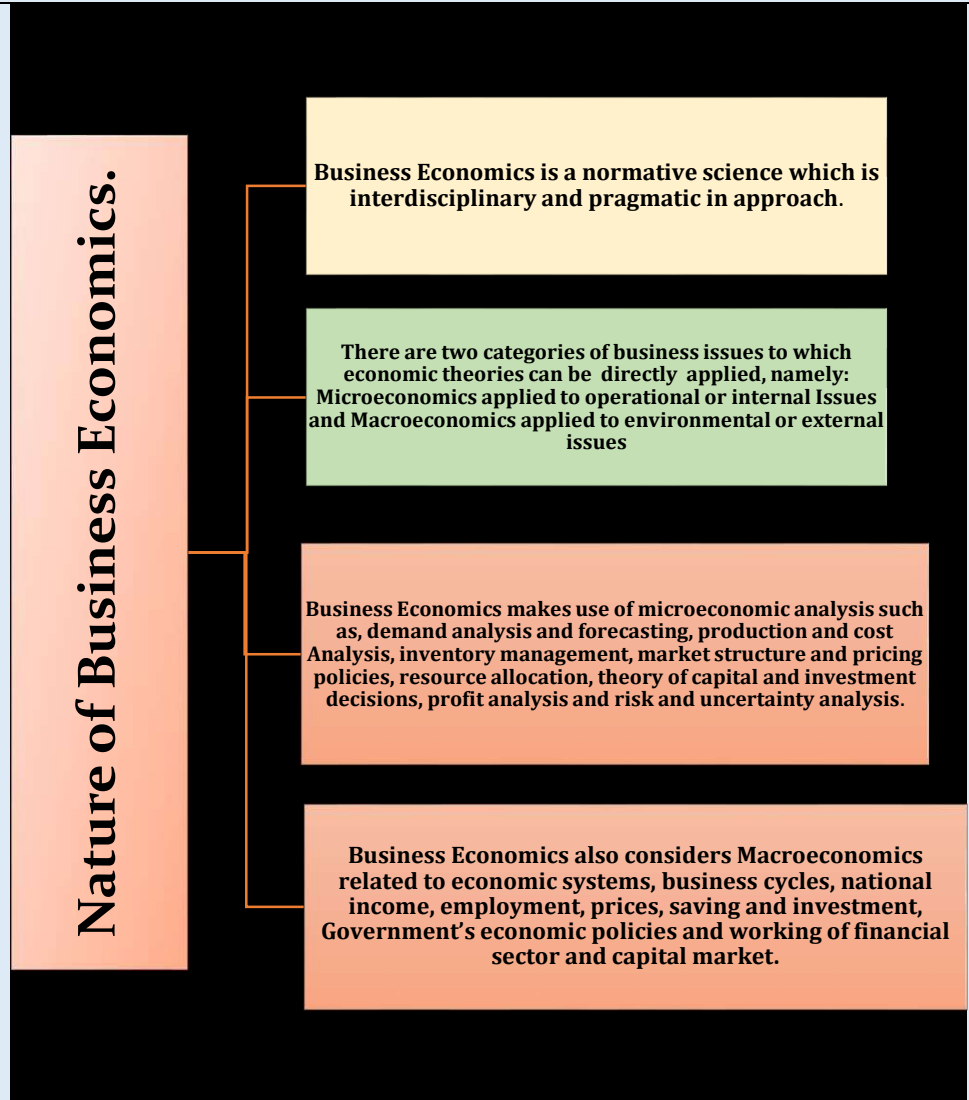

### The nature and scope of Managerial Economics.

<b>INTRODUCTION</b>	<p>Economics is the study process by which the relatively scarce resources are allocated to satisfy the competing unlimited wants of human beings in a society</p> <p>An economy exists because of two facts i.e. humans wants are unlimited and the resources are scarce</p>
<b>DIVISION OF ECONOMICS</b>	<p>The subject matter of Economics is divided into two parts- Micro and Macro Economics.</p>
<b>MICRO ECONOMICS</b>	<div style="display: flex; align-items: center;"> <div style="border: 1px solid gray; border-radius: 15px; padding: 10px; margin-right: 10px;"> <p style="text-align: center;">Microeconomics</p>  </div> <div style="background-color: #f0e68c; padding: 10px; border-radius: 15px; flex-grow: 1;"> <p>• Microeconomics examines how the individual units (consumers or firms) make decisions as to how to efficiently allocate their scarce resources.</p> </div> </div>
<b>MACRO ECONOMICS</b>	<div style="display: flex; align-items: center;"> <div style="border: 1px solid gray; border-radius: 15px; padding: 10px; margin-right: 10px;">  </div> <div style="background-color: #f0e68c; padding: 10px; border-radius: 15px; flex-grow: 1;"> <p>• Macroeconomics study the behavior of the large economic aggregates, such as, the overall levels of output, total consumption, total saving and total investment and how these aggregates shift over time.</p> </div> </div>
<b>DEFINITION OF BUSINESS ECONOMICS</b>	<p>Business Economics may be defined as the use of economic analysis to make business decision involving the best use of an organization's scarce resources.</p>
	<p>While Business Economics is basically concerned with Micro</p>

## SCOPE OF BUSINESS ECONOMICS

economic analysis has got an important role to play  
Macroeconomics analyses the environment in which the business has to function.

## NATURE OF BUSINESS ECONOMICS

## UNIT – 2

### BASIC PROBLEM OF AN ECONOMY AND ROLE OF PRICE MECHANISM

<b>BASIC PROBLEMS OF AN ECONOMY</b>	<p>As mentioned in the last unit all countries, without exception Face the problem of society.                  Their resources (nature productive resources, man – made Capital goods consumer goods, money and time etc.,) Are limited and these resources having alternative uses?</p>
<b>THE CENTRAL ECONOMIC PROBLEM</b>	<p>The central economic problem further divided into four basic</p> <div style="border: 1px solid black; padding: 5px; margin: 10px 0;"> <div style="background-color: yellow; padding: 2px 5px; border: 1px solid black; display: inline-block; margin-bottom: 5px;">What to produce?</div> <div style="background-color: lightgreen; padding: 2px 5px; border: 1px solid black; display: inline-block; margin-bottom: 5px;">How to produce?</div> <div style="background-color: lightblue; padding: 2px 5px; border: 1px solid black; display: inline-block;">For whom to produce?</div> </div> <p>Economic problems. These are:                  What provisions (if any) are to be made for economic growth?</p>
<b>CAPITALIST ECONOMY</b>	<p>Capitalism the predominant economic system in the modern global economy is an economic system in which all means of production are owned and controlled by private individuals for profit. In short, private property is the mainstay of capitalism and profit motives is its driving force.</p>
<b>SOCIAL ECONOMY</b>	<p>A socialist economy is also called as “command Economy” or a “Centrally planned Economy” .Here; the resources are allocated according to the command of a central planning authority.</p>
<b>THE MIXED ECONOMY</b>	<p>The mixed economic system depends on both markets and governments for allocation of resources. Infact , every economy in the real world makes use of both markets and government and therefore is mixed economy in its nature</p>

### **Question 1**

**'Economics is the study of mankind in the ordinary business of life' was given by:-**

- (a) Adam Smith
- (b) Alfred Marshal
- (c) Lord Robbins
- (d) Samuelson

**Answer: b**

**Explanation:**

Economics is a study of mankind in the ordinary business of life is the Welfare definition given by Alfred marshal.

### **Question 2**

**The branch of economic theory that deals with the problem of allocation of Resources is:**

- (a) Micro Economics
- (b) Econometrics
- (c) Macro Economics
- (d) None of these

**Answer: a**

**Explanation:**

The study of micro economics deals with how a producer allocates his resources and fixed a price of his product for the optimum utilization of resources.

### **Question 3**

**Capitalistic Economy uses as principal means of allocating resources**

- (a) Demand
- (b) Price
- (c) Supply
- (d) All of the above

**Answer: b**

**Explanation:**

A capitalistic economy is characterized by absence of state intervention this economy uses price mechanism to solve their basic economics.

### **Question 4**

**Under a free economy, prices are:**

- (a) Regulated
- (b) Depend Upon demand and supply
- (c) Partly regulated
- (d) None of these

**Answer: c**

**Explanation:**

Under free economy (capitalist economy) prices are determined by price or market i.e. there is no authority to determine prices \_ but they are decided by forces of demand and supply.

**Question 5**

**Which of the following falls under micro economics?**

- (a) National income (b) General price level  
(c) Factor pricing (d) National saving and investment

**Answer: c**

**Explanation:**

Micro economics studies economic behavior of individual economics units. Pricing of every factor is micro concept.

**Question 6**

**In a free market economy, when consumers increase their purchase of a goods and the level of \_\_exceeds \_\_then prices**

- (a) Demand, supply (b) Prices, demand  
(c) Supply, demand (d) Profit, supply

**Answer: a**

**Explanation:**

In a market (capitalist) economy prices are determined by market forces of Demand and supply. When demand of goods increase, the supply remaining the same, the prices of goods rises.

**Question 7**

**Under inductive method logic proceeds from:**

- (a) General to particular (b) Positive to normative  
(c) Normative to positive (d) Particular to general

**Answer: d**

**Explanation:**

Under inductive Method Conclusions are drawn on the basis of collection and analysis is of facts relevant to the enquiry. The logic in this case proceeds from the particular to general.

**Question 8**

**The meaning of time element in economics is:**

- (a) Calendar time (b) Clock time  
(c) Operational time in which supply (d) None of these  
adjust

with the market demand

**Answer: a**

**Explanation:**

In Economics the time element is taken as per day, per week, per month, per annum etc. Hence time element should be taken as calendar time.

### **Question 9**

**Micro economics does not study**

- |                         |                    |
|-------------------------|--------------------|
| (a) Consumer behavior   | (b) Factor pricing |
| (c) General price level | (d) None of these  |

**Answer: c**

**Explanation:**

Micro Economics is the study of particular firms, particular households' individual price, wage income, individual industries and particular Commodities.

### **Question 10**

**All wants of an individual are not of:**

- |                      |                          |
|----------------------|--------------------------|
| (a) Equal importance | (b) Immediate importance |
| (c) Fixed importance | (d) All of the above     |

**Answer: a**

**Explanation:**

All wants to individuals are not of equal importance as all cannot be fulfilled.

### **Question 11**

**Freedom of economic choices characteristics of:**

- |                          |                         |
|--------------------------|-------------------------|
| (a) Mixed economy        | (b) socialistic economy |
| (c) Capitalistic economy | (d) None                |

**Answer: c**

**Explanation:**

**Characteristic of capitalistic economy:**

- ❖ Right to private property
- ❖ Freedom of enterprise:
- ❖ Freedom of economic choice
- ❖ Profit motive:
- ❖ Absence of Government interference

### **Question 12**

**Who is the author of "The Nature and causes of wealth of Nation"?**

- |                |             |
|----------------|-------------|
| (a) Karl Mars  | (b) J B say |
| (c) Adam smith | (d) C Pigou |

**Answer: c**

**Explanation:**

Science of wealth: Although the activity of acquiring and increasing material wealth is as old as Civilization, a disciplined study of the wealth producing

activities Commenced about 235 years back (in 1776) when Adam Smith : the father of Economics, published “The Nature and causes of wealth of Nation”.

### **Question 13**

**When the economy makes technological progress, the production possibility Curve will shift?**

- (a) Inward to the left (b) Outward to the right  
(c) A movement along the same curve (d) A point inside the curve

**Answer: b**

**Explanation:**

PPC points show that goods and services product are at least cost and no resource is wasted. As economy makes progress in technology the PPC will shift outward and to the right showing that more of both goods can be produced than before.

### **Question 14**

**Socialist Economy is also Known as**

- (a) Capitalized Economy (b) Mixed Economy  
(c) Planned Economy (d) None

**Answer: c**

**Explanation:**

Socialist economy is a planned economy. The entire national economy in socialist society develops in a planned and proportionate way. This is the objective law governing socialist economic development and an important feature showing the superiority of the socialist economy over the capitalist economy. A planned economy is a type of economy consisting of a mixture of public ownership of the means of production and the coordination of production and distribution through state planning. In a socialist system, production is geared towards satisfying economic demands and human needs.

### **Question 15**

**Who has defined economics as “Science which deals with wealth “**

- (a) Adam Smith (b) Canon  
(c) J.B. Say (d) A.C. Pigou

**Answer: c**

**Explanation:**

Many classical economists defined economics in term of wealth. JB Say is one of them .He said Economics is a “Science which deals with wealth”.

### **Question 16**

**Production possibility Curve is also known as:**

- (a) Demand curve (b) Transformation Curve  
(c) Supply Curve (d) Indifference Curve

**Answer: b**

**Explanation:**

In economics, a production possibility curve is also known as transformation curve. It is a graph that shows different rates of production of two goods that an individual or groups can efficiently produce with limited resources.

**Question 17**

**The term "Mixed Economy" denotes.**

- (a) Co- existence of both consumers and Producers goods industries in the economy      (b) Co- existence of both private and public sectors in the economy.  
 (c) Co- existence of both rural and urban Sectors in the economy      (d) Co- existence of both large and small industry In the economy

**Answer: b**

**Explanation:**

The term "Mixed Economy" denotes co- existence of both private & public sector in the economy. In fact, in a mixed economy, there are three sectors.

- Private sector
- Public sector
- Combined sector

**Question 18**

**Which of the following is not a feature of a capitalist economy?**

- (a) Right to private property      (b) Restriction on consumer Right to choose  
 (c) Profit motive      (d) freedom of enterprise

**Answer: b**

**Explanation:**

**The feature of a capitalist economy is:**

- ❖ The right of private property.
- ❖ Freedom of enterprise.
- ❖ Freedom to choice by the consumer.
- ❖ Profit motive.
- ❖ Competition.
- ❖ Inequalities of income.
- ❖ Hence, restriction on consumer right to choose is not a feature of a capitalistic.

**Question 19**

**The most important function of an entrepreneur is to –**

- (a) Innovate      (b) Bear the sense of responsibilities.  
 (c) Finance      (d) Earn profit

**Answer: a**

**Explanation:**

Entrepreneur is one of the factors of production. He is the one who co- ordinate with other factor like land, labor, capital etc. various functions of entrepreneur Are decision – making,managerial, organizational function of an entrepreneur is Innovate.

**Question 20**

**Who does price mechanism exist?**

- (a) Capitalist Economy (b) Socialist Economy  
(c) Both type of economics (d) None of the above

**Answer: a**

**Explanation:**

A capitalistic economy has no central planning to decide what. How and for whom to produce. This economy uses the impersonal forces of the market demand and supply or price mechanism to solve its central problem.

**Question 21**

**Positive science only explains**

- (a)Whatis? (b) What ought to be?  
(c) What is right or wrong (d) None of the above

**Answer: a**

**Explanation:**

A positive or pure science analyses causes and effect relationship between variables but It does not pass value judgment. It states what is. Thus option (a) is correct.

**Question 22**

**In which among the following system the `right to property' exists**

- (a) Mixed economy (b) Socialist economy  
(c) Capitalist economy (d) Traditional economy

**Answer: c**

**Explanation:**

Capitalism is an economics system in which all the means of production are owned and controlled by private individuals for profit. The right of private property means that productive factors such as land, factories, machinery, mines etc. are under private ownership. The owners of these factors are free to use them in the manner they like. Thus option (c) is correct.

**Question 23**

**Economics which is concerned with welfare propositions is called:-**

- (a) Socialistic economics (b) Positive economics  
(c) Capitalistic economics (d) Normal economics

**Answer: d**

**Explanation:**

Normal aspects is concerned with welfare proposition .it involves value judgments.

It is prescriptive in nature and describes ` what should be the thing. For e.g. what should be the wages rate. Thus normative economics is the correct option.

**Question 24**

**A system of economy in which all the means of production re - owned and controlled by the private individual for the purpose of profit is called**

- (a) Socialist economy (b) Capitalist Economy  
(c) Mixed economy (d) All of the above

**Answer: b**

**Explanation:**

Capitalistic is an economic system in which all the means of production are owned and controlled. By private individuals for profit. The government does not interfere in the management of economic Affairs under this system.

**Question 25**

**Economic is the science of choice making. It implies:**

- (a) No choice is to be made (b) choice to be made between  
Alternative uses  
(c) Choice to be made means (d) Net of the Above

**Answer: b**

**Explanation:**

Robbins gave the following definition of economics –

“Economics is the science which studies human behavior as a relationship between ends and scarce means which have alternative uses”

Thus economics is a science of choice which is to be made between alternative uses.

**Question 26**

**Which of the following is a part of the subject matter of macroeconomics?**

- (a) Study of firms (b) Market demand for a product  
(c) Aggregate profits of a firm (d) None

**Answer: c**

**Explanation:**

In macroeconomics, we study the economic behavior of large aggregates such as Overall condition of economy, total production etc. Out of the option given only NNP studies income which is related with the entire.

**Question 27**

**The usual shape of production possibility is \_\_ towards the origin.**

- (a) Convex  
(c) Concave
- (b) Straight line  
(d) A rectangular hyperbola

**Answer: c**

**Explanation:**

PPC show the various combinations of two goods which the economy can produce with the given amount of resources. In this context, since there are only two Goods, therefore the opportunity cost of producing one goods is in terms of scarified Thus, opportunity cost goes on increasing. It is this principal of increasing opposite Cost that makes the PPC concave to origin.

### **Question 28**

**Deductive and inductive method is complimentary to each other. It is:**

- (a) Absolutely correct  
(c) Partially incorrect
- (b) Absolutely incorrect  
(d) None of the Above

**Answer: a**

**Explanation:**

Deductive and inductive methods are not mutually exclusive and are used side by side in any Sacrifice inquiry. Conclusion drawn from the deductive method of reasoning are verified be Inductive method of observing concrete facts of life. Thus it can be said that deductive method are complementary to each other is absolutely correct.

### **Question 29**

**What will be the shape of Production Possibility Curve (PPC) when marginal opportunity cost is constant?**

- (a) Concave  
(c) Backward bending
- (b) Convex  
(d) Straight line

**Answer: d**

**Explanation:**

The slope of PPC depends upon marginal opportunity cost. A constant OC indicates that given resource are equally suited for the production of two goods. So when the constant, PPC is a straight line.

### **Question 30**

**A capitalist economy is by and large**

- (a) A closed economy  
(c) A centrally controlled economy collects  
any taxes nor incurs
- (b) A free market economy  
(d) An economy in which a govt. neither

**Answer: b**

**Explanation:**

A capitalist economy also known as free market economy has no central planning authority to decide what how and for whom to produce. Such an economy uses the impersonal force of the market demand and supply or the price mechanism to solve its central problem.

### **Question 31**

**In Inductive method, logic proceeds from;**

- (a) General to particular (b) Particular to General  
(c) Both (a) and (b) (d) None of these

**Answer: b**

**Explanation:**

Under inductive method, conclusion is drawn on the basis of collection and analysis of facts relevant to the enquiry. Here the logic proceeds from particular to general this means generalization is made based on facts collected.

### **Question 32**

**Collective Ownership is concept of Mixed Economy state this statement with reason.**

- (a) True (b) False  
(c) Partly false (c) None

**Answer: b**

**Explanation:**

**Characteristic of SOCIALIST economy are:**

**Collective Ownership:** There is collective ownership of all means of production except small Farms, workshops and trading firms which many remain in private hands. As a result of social ownership profit – motive and self – interest are not the driving forces of economic activity as it is in the case of a market economy. The resources are used to achieve certain socio-economic activity.

### **Question 33**

**Normative Economic is based on:**

- (a) Ethical Consideration (b) Facts and Generalization  
(c) What is? (d) All of the Above

**Answer: a**

**Explanation:**

Normative economic is concerned with welfare proposition. It states “what should be thing “. It does not deal with facts but involves value judgment. The ethical aspect of economic is normative economic for – what should be the wage rate level? This is a normative statement.

### **Question 34**

**Which of the following is the feature of mixed economy?**

- (a) Planned economy  
(c) Balance regional
- (b) Facts and generalization  
(d) All of the Above

**Answer: d**

**Explanation:**

An economy which incorporates the feature of both capitalist and socialist economics is called A Mixed Economy. It has the following features Mixed Economy is a planned economy i.e. Here the government has. A clear and defined economic plan. In mixed economy the price are the determined both by price mechanism and central planning Authority. Hence dual system of pricing exists. There is a balanced regional development in a mixed economy as the public sector enterprises will be set up in backward areas for balanced development. Hence, the answer will be all of these

**Question 35**

**Which of these is a part of micro economy?**

- (a) Factor pricing  
(c) Balance of payment
- (b) National Income  
(d) None of the above

**Answer: a**

**Explanation:**

Micro economics is his study of economic behavior of an individual firms or industry in the national Economy. It is the study of a particular unit. Factor pricing relates to pricing of individual factor and hence is a subject of micro economics Mixed means.

**Question 36**

**The term, "Mixed Economy" denotes:**

- (a) Coexistence of both private and public sector  
(c) Both (a) and (b)

(d) None of the Above

**Answer: a**

**Explanation:**

Mixed economy is an economy which includes the best feature of both controlled economies

And market economy the most important feature of mixed economy.

**Question 37**

**Who gave the positive aspect of science?**

- (a) Alfred Marshall  
(c) Adam Smith
- (b) AC. Pigou  
(d) Prof. Robbins

**Answer: d**

**Explanation:**

A positive or pure science analyses cause and effect relationship between variables but it does not pass value judgments. This positive aspect of science was emphasized by professor Robbins.

### **Question 38**

**Inequalities of income do not perpetuate in\_\_\_\_\_**

- |                |                   |
|----------------|-------------------|
| (a) Socialism  | (b) Mixed economy |
| (c) Capitalism | (d) None          |

**Answer: a**

**Explanation:**

A relative equality of income is an important feature of socialistic economy. Education and other facilities more or less equally, thus the basic cause of inequalities are removed.

### **Question 39**

**Which of the following statement is incorrect?**

- |   |  |
|---|--|
| (a) Alfred Marshall Propagated the wealth definition of economics | (b) L. Robbins introduced the "scarcity definition of economics" |
| (c) Samuelson emphasized upon the "growth" aspect of economics    | (d) A.C. Pigou believed in "welfare" aspect of economics         |

**Answer: a**

**Explanation:**

The 'wealth' definition of Economics was given by Adam Smith and JB Say, "An inquiry into the nature and causes of the wealth of the nations – Adam Smith." "Science which deals with wealth" JB Say.

### **Question 40**

**In a capitalist economy the allocation of resources is performed by:**

- |               |                     |
|---------------|---------------------|
| (a) Producers | (b) Government.     |
| (c) Planners  | (d) Price mechanism |

**Answer: d**

**Explanation:**

A capitalistic economy has no central planning authority decide what, how and for whom to produce. Thus the allocation of resources is performed by the market forces of demand and supply known as price mechanism.

### **Question 41**

**Location of industries is matter of which economy.**

- |                     |                     |
|---------------------|---------------------|
| (a) Macro Economics | (b) Micro Economics |
| (c) (A) or (B)      | (d) None            |

**Answer: b**

**Explanation:**

We mainly study the following in Micro- Economics.

- ✚ Product price
- ✚ Consumer behavior;
- ✚ Factor pricing;
- ✚ The economic, condition of a section of people;
- ✚ Behavior of firms; and location of industry.

### **Question 42**

**Micro economics applied for External uses.**

- (a) True (b) False  
(c) Partly True (d) None

**Answer: b**

**Explanation:**

Micro economics applied to operational or internal issues Macroeconomics applied to environmental or external issue. Therefore this statement is false

### **Question 43**

**Which of the following is not within the scope of Business Economics?**

- (a) Capital Budgeting (b) Risk Analysis  
(c) Business cycle (d) Accounting standard

**Answer: d**

**Explanation:**

Accounting standard is not within the scope of business economics where all other covered under the scope therefore the correct answer is d.

### **Question 44**

**Larger production of goods would lead to higher production in future.**

- (a) Consumer goods (b) Capital goods  
(c) Agriculture goods (d) Public goods

**Answer: b**

**Explanation:**

All the producers have limited amount of money and they to invest this money in both the consumer goods and the capital good. Capital goods are utilized to produce consumer goods. So, if an economy is investing more in capital goods, it shows signs in near future an increase in GDP.

### **Question 45**

**Economics goods are considered scarce resources because they:-**

- (a) Cannot be increased in quantity (b) Do not exist adequate quantity to satisfy the requirement of the society

Cost standards

**Question 5****Which of the following statement is correct?**

(a) Mixed economy is not golden path between social and capital economy

(b) Capital economy is not golden path between mixed and social economy

(c) Social economy is not golden path between mixed and capital economy

(d) Mixed economy is golden path between social and capital economy

**Answer: a****Explanation:**

A mixed economic system is a system that combines aspects of both capitalism and socialism. A mixed economic system protects private property and allows a level of economic freedom in the use of capital, but also allows for governments to interfere in economic activities in order to achieve social aims

**Question 6****The concept of socialist economy was propounded by**

(a) Karl Marx and Adam smith

(b) Fredrik angels and Karl Marx

(c) Fredrik angels

(d) Karl Marx and Fredrik angels

**Answer: a****Explanation:**

Karl Marx described a socialist society as such: ... The same amount of labour which he has given to society in one form, he receives back in another. Socialism is a post-commodity economic system and production is carried out to directly produce use-value rather than toward generating profit.

**Question 7****Business Economics is pragmatic in its approach because?**

- |  |  |
|--|--|
| (a) It deals with practical problems which the firm faces in real world.           | (b) It deals with practical problems which the firm faces due to WTO policies. |
| (c) It deals with practical problems which the firm faces due to lack of directors | (d) Business Economics is abstract and purely theoretical.                     |

**Answer: c****Explanation:**

Business economics is pragmatic in its approach. It does not involve itself with the theoretical controversies of economics. Yet it does not relegate the realities of business decision-making to the background by bringing in abstract assumptions.

**Question 8****The central economic problem does not deal with which of the following economic problem...?**

- |                             |                          |
|-----------------------------|--------------------------|
| (a) What to produce...?     | (b) How to produce...?   |
| (c) For whom to produce...? | (d) Where to produce...? |

**Answer: d****Explanation:**

The central problem of an economy does not deal with the time of production as it is assumed that human wants are unlimited and goods are required.

**Question 9****Business Economics is essentially a component of Applied Economics as it includes application of selected quantitative techniques. Which technique is not included in it?**

- |                         |                        |
|-------------------------|------------------------|
| (a) Regression analysis | (b) Capital budgeting  |
| (c) Economic analysis   | (d) Linear programming |

**Answer: c****Explanation:**

Applied economics is the application of economic theory to determine the likely outcomes associated with various possible courses of action in the real world. By better understanding the likely consequences of choices made by individuals, businesses, and policy makers, we can help them make better choices.

**Question 10****Which of the following is not a study of Macro -economics?**

- |                        |                     |
|------------------------|---------------------|
| (a) Consumer behaviour | (b) National Income |
|------------------------|---------------------|

(c) General price level

d) Economic problems

**Answer: d****Explanation**

Scarcity is one of the key concepts of economics. It means that the demand for a good or service is greater than the availability of the good or service. Therefore, scarcity can limit the choices available to the consumers who ultimately make up the economy hence it creates economic problem.

**Question 3****Which of the following is NOT a basic problem of an economy?**

- a) Whether to produce more of consumer goods for or capital goods  
c) Whether to produce for rich people or for poor people  
b) Whether to lay emphasis on labour intensive technique or on capital intensity techniques  
d) Whether to accept foreign direct investment in the economy

**Answer: d****Explanation**

The four basic problems of an economy, which arise from the central problem of scarcity of resources are:

- What to produce?
- How to produce?
- For whom to produce?
- What provisions (if any) are to be made for economic growth?

**Question 4****\_\_\_\_\_ involves the predominance of bureaucracy and resulting in inefficiency and delays.**

- a) Socialistic economy  
c) Mixed economy

- b) capitalistic economy  
d) Free market economy

**Answer: a****Explanation**

Socialist economy is a centrally planned economy. Hence decisions are delayed due to number of procedures & rules

### **Question 5**

**Capitalistic system offers incentives for**

- |   |                                   |
|---|-----------------------------------|
| a) Efficient business decisions         | b) Efficient government decisions |
| c) Efficient non-governmental decisions | d) Efficient economic decisions   |

**Answer: d**

### **Explanation**

In capitalist economies, people have strong incentives to work hard, increase efficiency, and produce superior products.

### **Question 6**

**Which of the following does not fall in the category of macro environment?**

- |                            |                            |
|----------------------------|----------------------------|
| a) Big Bazar               | b) Fiscal Policy           |
| c) Consumer Protection Act | d) Consumer Protection Act |

**Answer: a**

### **Explanation**

Technology and Business are highly interrelated and interdependent. The fruits of technological research and development are available to society through business and this also improves the quality of life of the society. Hence, technology is patronized by business.

### **Question 7**

**Study of gdp of Indian economy after covid 19 is a study of**

- |                       |                         |
|-----------------------|-------------------------|
| a) microeconomics     | b) macroeconomics       |
| c) business economics | d) managerial economics |

**Answer: b**

### **Explanation**

A macro environment refers to the set of conditions that exist in the economy as a whole, rather than in a particular sector or region.

### **Question 8**

**If the income elasticity of AC is 1.8, what is the nature of this commodity?**

- |                  |                      |
|------------------|----------------------|
| a) conspicuous   | b) necessities       |
| c) Griffin goods | d) none of the above |

**Answer: a**

### **Explanation**

Conspicuous consumption is the act of displaying ostentatious wealth to gain status and reputation in society.

Elasticity is greater than 1

**Question 9****When marginal utility is zero**

- a) total utility is maximum                      b) total utility is minimum  
c) total utility is Zero                      d) total utility is increasing

**Answer: a****Explanation**

TU is maximum, the MU reaches zero. TU stops growing in this phase, this point is known as the point of safety. When consumption increases beyond the point of satisfaction, then the MU becomes negative and TU starts falling.

**Question 10****India follows which type of economy?**

- a) Mixed economy                      b) socialist economy  
c) capitalist economy                      d) political economy

**Answer: a****Explanation**

India is considered a mixed economy: the private and public sectors co-exist and the country leverages international trade.

**Question 11****When marginal utility is zero then total utility is \_\_\_\_\_**

- a) Maximum                      b) Lower  
c) Negative                      d) Increasing

**Answer: a****Explanation**

When marginal utility is zero, then total utility is maximum because any further consumption of that commodity will lead to negative marginal utility and therefore total utility will tend to decrease.

**Question 12****Which one of the following is NOT a part of Economic policies?**
